CITY COUNCIL.

A regular meeting of the City Council was

held last night.

a quorum was present at the appointed hour of meeting. After the reading of the minutes of the preceding meeting, no business appearing, a recess was taken. After an intermission of about twenty minutes, some papers which had been acted upon by the Common Council were received from that board and their action concurred in. .

Mr. Bryant, from the Committee on rects, explained why the bill for renumtering the houses of the city had not been reported from his committee. It appears that the committee are deferring action un it a new survey of the thoroughfares of the city is made. The speaker said it in no way retarded the introduction of the free delivery system, as was imagined by some.

Mr. Strauss was averse to adopting the bill, anyhow, as the money which would be expended in carrying out its provisions

and be devoted to repairing the streets.

Mr. Smith moved that the committee be discharged from the further consideration of the matter, and that the Aldermen act on Resolved the till forthwith. He saw no reason for deferring action until a new survey of the city could be made. Mr. Bryant said he would be glad to be

relieved from any further labor in the mat ter, and again explained, the reasons the Three members of the committee had taken the same view of the subject.

Mr. Strauss said the bill was not before the board, and would not be until properly reported from committee; hence Mr. smith's motion could not be entertained, and debate was useless at this time. Let the board weit until the next meeting, when the committee would probably be ready to report. It was not deferential to the Committee on Streets to discuss the bill now.

Mr. Smith disclaimed any intention of discourtesy. His motion, however, was in order; he had seen the same thing done o'ten. The power which referred a bill to a committee had authority to relieve the same from its further consideration. There was nothing unparliamentary in that. The Committee on Streets had had the bill in their bands since last December, and having failed to report it Council bad all power to discharge them from its further consideration and bring the matter up whenever

Mr. Strauss again urged his objections, and, after some further discussion, at the suggestion of the President Mr. Smith withdrew his motion and the board adjourned.

COMMON COUNCIL. At the regular meeting of the Board, last hight, a quorum gathered fifteen minutes

after the hour of assembling.

The Mayor communicated to the councils the letter of General Supt. Carson giving the reasons why non-subscribers to the city telephone system are not allowed to use the Washington telephones. One reason for excluding all non subscribers from the Washington line "was the hope of increasing our list of exchange subscribers or preventing it from growing smaller." Another reason against "allowing non-subscribers to use the Washington line appears to us a discrimination against our Exchange subscribers upon whom we rely to maintain the Exchange."
He concludes, "We are ready to hear anything his honor, the mayor, or the honorable city council, may have to say in the matmittee on general laws.

Mr. President: "Mr. Snowden have you anything to tell us about the iron works?"
Mr. Snowden: "Nothing, sir."
An appropriation bill of \$150 for the pur-

chase of a street roller having come in from the Alderman, several members asked an explanation.

Mr. Brent, from the committee on streets. explained that besides its great cost, a steam roller would be too heavy for new cobble stone streets, but with this roller they could place a light load on the streets at first and then a heavier load further on. The roller would be made here by Mr. W. S. Moore.

On motion, the appropriation was postponed and the board adjourned.

tee of the District Grange of Northern Virginia met at the Braddock House last night, present: Messrs. J. R. Aldrich, chairman; H. H. Garrett, J. B. Bowman, W. A. Van Dusen and D. H. Plaster.

The constitution of the insurance compa ny, to be submitted to the Grange, was dis ussed at length and the matter laid over

till to-day.

Mr. McCauley, of Ohio, a Knight of La bor, made a statement in relation to the

Champion Reaper Works.

The executive committee then took up and considered its report, which was adopted, and at 3 a. m. the committee adjourned till 9 o'clock.

The committee reassembled this morning, when the consideration of the insurance work was resumed and the constitution and by laws adopted. The \$50,000 necessary to start the work has been subscribed.

The Grange met at 10:30 o'clock this morning, H. H. Garrett, Muster, in the chair, A. J. Wedderburn secretary and all the other efficers in their places. Master A. Harding, scoretary of the Washington Garrett delived the annual address. There association, H. O. Williams, secretary of the were thirty-seven delegates present, from nine Granges, representing the counties of Fairfax, Frederick, Loudoun, Prince Wil-

liam and Spotsylvania. The report of the executive committee ings be held a year, two of which are to be at Grange Camp. It suggests "that the great need of this particular section of the State is the development of its agricultural re-

cell cted; that the Grange is out of debt, and that the membership during the year has increased. The secretary says: "At one time we had twenty-six counties represented in this Grange; recently, up to this session, we have had only six. Once we had nearly 100 subordinate Granges, now only twolve. And I will fearly near the filter of the following and the filter of the filte grit and more stick in them than the 100."

The reports were appropriately referred. The Grange then took a recess till this evening.
On reassembling, H. H. Murray, Master, and
T. F. Shepherd, chairman of the executive committee of Maryland State Grange spoke in regard
to the establishment of an agency in Washington.
The session will continue to-night and to-morrow.

The play selected is "Virginius," a work which taxes the versa tility of the actor to an unusual extent, but Mr. James is said to meet the requirements admirably, his deep musical voice assisting him to the greatest success. Miss Wainwright is said to play the part of V.rginia with great beauty. The company carry, and will use, their own special scenery, and all the elaborate costumes worn by them in the leading cities of the country will be used to night. The Chicago News says:

SUDDEN DEATH.—The many friends and arqueintances of Mr. Valentine Baker, in this city and vicinity, were surprised and shocked this morning at the announcement of his death, which occurred very suddenly during the night of congestion, of the lungs or quinsy, at his home, Wellington, in Mt.
